- Corrugated and Paper Products—Separation, processing and densification
- Solid Waste—Separation, densifying and processing
- Miscellaneous products, including wood, rubber and glass.

#### Other Advantages:

### Recycling Equipment

#### Balers

- Vertical
- Horizontal
- Manual and Automatic
- Tie\Two Ram

#### Conveyors

- Rubber Belt
- Steel Belt

#### Shredders

- Slow Speed, High Torque
- High Speed

#### Other

- Compactors
- Granulators

- Equipment we sell is ANSI, OSHA and UL approved.
- Equipment is used to meet ISO 14000 requirements
- Our Equipment is used to handle all liquids generated from the solids in an environmentally acceptable way.

**Our Goals are:**

- To provide cost savings through land fill avoidance and fuel and freight savings through densification of materials.
- Add revenues through recycling and market products
- Reduce dependence on scarce natural resources such as Oil, a major component of all plastic products.
